# THE EARTH

Her spiritual secrets revealed

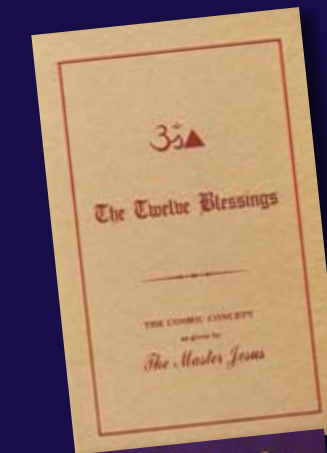

Dr George King

The Earth is a living being. She is an ancient intelligence who has accepted the limitations of her current physical form to provide us with a planetary home. By doing so, she has given us a wonderful classroom to gain experience after experience in the journey called life.

For millions of years we have reincarnated on this beautiful planet, for the most part with little thought of offering even a token of thankfulness in return for this sacrifice she has made on

our behalf. But a great change is taking place. According to the perfectly balanced Law of Karma mankind cannot reside here indefinitely while indulging in the futilities of war, pollution, excessive materialism, and so on. We will have to change or we will no longer be allowed to continue to reincarnate upon such a holy entity.

In these talks you will discover the outstanding, controversial and inspiring revelations given to humanity by, and through, the founder of The Aetherius Society – Dr George King (1919-1997) – one of the most remarkable mediums the world has ever seen. Through intense practice of the higher forms of yoga, for an average of 8-10 hours a day for about a decade, Dr King entered the highest states of consciousness attainable on Earth, and also became a skilled medium – not just for intelligences on the higher planes of Earth – but also for beings from other planets.
